

Aug. 11, 2023

To whom it may concern,

The letter is to certify that the International Fact-Checking Network has received an application for renewal from CORRECTIV.org for the network's Code of Principles, and we consider it to be a signatory in good standing.

Due to an administrative backlog at IFCN, their application has taken longer than the normal period. We are taking steps to upgrade our systems in order to eliminate the automated process that generates a false "expired" status.

Sincerely,

Angie Drobnic Holan  
IFCN director
